SUPERCritical CARBON DIOXIDE

EXTRACTION TECHNICAL CHARACTERISTICS

超临界萃取技术特点

Extraction medium: carbon dioxide, which is colorless, odorless, tasteless and non-toxic, green and safety in process.

Fully retain the natural characteristic of the original material owing to non-chemical reaction occurrence during production.

Complete, rapid and high selective extraction.

No damage to the original composition owing to low temperature and black field extraction.

No organic solvent residues in product and no pollution for the surroundings.

使用二氧化碳为萃取介质，无毒、无害、无色，生产操作安全。

二氧化碳在常温下为气体，对产品无残留，易于分离。萃取和分离温度低，一般在30度左右，产品天然感好。超临界二氧化碳具有很强的渗透性和溶解能力，萃取速度快，萃取程度高，产品的选择性可调。萃取在全封闭的管道中进行，避免了光照分解。

高压二氧化碳具有杀菌作用和抗氧化作用。
